SUMMARY

Cloud Services NOC Engineer with 3+ years applying Site Reliability Engineering (SRE) and Cloud Operations practices to ensure availability, performance, and reliability of enterprise SaaS platforms on AWS and Azure for 50+ Fortune 500 customers. Skilled in Kubernetes (AKS) troubleshooting, Linux administration, incident management, observability, and root cause analysis. Resolved 5,000+ production incidents with 99.9% uptime, reduced resolution times through systematic RCA, and authored 10+ runbooks adopted team-wide. Experienced in 24x7 rotating shift operations, SLA adherence, and cross-team collaboration with Technical Architect and SRE teams.

EXPERIENCE

Cloud Services Specialist NOC Engineer

November 2025 - Present

Parametric Technology Corporation (PTC), Pune, India

- Provide 24x7 production support for enterprise SaaS platforms on AWS and Azure for 50+ Fortune 500 customers, leading incident response and ensuring platform stability.
- Perform pod-level and node-level troubleshooting on Azure Kubernetes Service (AKS) using kubectl and k9s, checking node health, investigating pod failures, and analyzing container logs through observability and monitoring tools.
- Diagnose and resolve Kubernetes issues including CrashLoopBackOff, OOMKilled, OutOfMemoryError, pod restarts, and node scale-down events across microservices namespaces.
- Administer PTC Windchill PDMLink at the operational level: verify service and daemon configuration, start Windchill services and dependent CAD applications, and troubleshoot failures through log analysis.
- Manage the full alert lifecycle in Zabbix, set up and validate monitoring for customer go-lives, and use Salt for configuration management across managed servers.
- Mentor new and junior engineers on runbook procedures and incident handling across a 12-member team.

Cloud Services Associate NOC Engineer

December 2022 - November 2025

Parametric Technology Corporation (PTC), Pune, India

- Triaged and resolved 5,000+ production incidents on hosted environments across AWS and Azure, achieving 99.9% uptime across 50+ Fortune 500 client environments.
- Resolved recurring memory and OutOfMemory alerts through systematic root cause analysis over 2.5+ years, collaborating with the Technical Architect team to improve performance and optimize infrastructure cost.
- Investigated and triaged alerts including web server outages, application service downtime, high resource utilization, and Java process spikes; resolved directly where possible or escalated to NOC Central and Incident Management teams.
- Diagnosed issues by analyzing logs in Sumo Logic and AWS CloudWatch, performing Linux troubleshooting across 200+ production servers including Apache, Tomcat, Apache DS, and Red Hat Directory Server.
- Raised and managed change requests through ServiceNow following ITIL processes, authoring 10+ runbooks and continuously refining existing ones while working 24x7 rotating shifts.

Programmer Analyst Trainee

January 2022 - June 2022

Cognizant Technology Solutions, Bangalore, India

- Completed a 6-month paid final-year internship: trained in full-stack fundamentals, SQL, and databases, then specialized in Java, building a Spring Boot MVC project with MySQL. Earned a full-time offer based on performance.

TECHNICAL SKILLS

Reliability & SRE: Site Reliability Engineering (SRE), Production Support, Observability, Incident Management, Major Incident Management, Root Cause Analysis, SLA Adherence, Change Management, On-Call Operations

Cloud & Containers: AWS (EC2, CloudWatch), Microsoft Azure (AKS, Virtual Machines, App Services), Azure Kubernetes Service (AKS), kubectl, k9s, Pod & Node Troubleshooting, Namespaces, CrashLoopBackOff, OOMKilled, Container Health Diagnostics

OS, Scripting & Automation: Linux (RHEL, CentOS, Ubuntu), Bash & Shell Scripting, Python, PowerShell, Salt (SaltStack), Cron, Systemd, SSH, Apache, Tomcat, Performance Tuning

Monitoring & Observability: Zabbix, Sumo Logic, AWS CloudWatch, Prometheus, Grafana, Catchpoint, PagerDuty, Alert Lifecycle Management, Log & Event Analysis

Applications & Directory Services: PTC Windchill PDMLink (operational administration), Apache DS, Red Hat Directory Server, Service & Daemon Management, CAD Application Support

Databases, Networking & ITSM: PostgreSQL, MySQL, SQL, DNS, TCP/IP, Load Balancers, VPN, ServiceNow, Jira, Bitbucket, ITIL, Knowledge Base, Documentation

AI Tools: Microsoft Copilot, Claude, ChatGPT, Gemini (for troubleshooting, scripting, and productivity)

CERTIFICATIONS

- Microsoft Certified: AZ-900 Azure Fundamentals - Microsoft, 2023
- Microsoft Certified: DP-900 Data Fundamentals - Microsoft, 2023
- Advanced Kubernetes Operations and Linux System Administration - KodeKloud, 2025

ACHIEVEMENTS

- Customer First Award at PTC for major incident recovery and operational impact (2024).
- PTC Cheers Award for performance and efficiency (2026).
- Won Smart India Hackathon at the national level in 2020 (10,000+ competing teams).
- Attended KubeCon + CloudNativeCon India 2025 and 2026.

EDUCATION

MBA - Information Systems Management / Analytics & Data Science, Manipal University Jaipur | 2025 - 2027 (Expected)

B.E. - Electronics and Instrumentation, Panimalar Engineering College | CGPA: 8.1 / 10 | 2018 - 2022
