

DINESH RAVICHANDIRAN

Cloud Services NOC Engineer

linkedin.com/in/dineshravichandiran | dineshravichandiran0808@gmail.com | +91-9790808608 | Pune, India

Summary

Cloud Services NOC Engineer with 3+ years of experience applying Site Reliability Engineering (SRE) and Cloud Operations practices to ensure availability, performance, and reliability of enterprise SaaS platforms on AWS and Azure for Fortune 500 customers. Skilled in Kubernetes (AKS) pod and node troubleshooting, Linux administration, incident management, observability, log analysis, and root cause analysis. Resolved 5,000+ production incidents with 99.9% uptime, reduced MTTR through systematic RCA, and authored runbooks adopted team-wide. Experienced in 24x7 rotating shift operations, SLA adherence, and cross-team collaboration with Technical Architect and SRE teams.

Experience

Parametric Technology Corporation (PTC)

November 2025 - Present

Cloud Services Specialist NOC Engineer

Pune, India

- Provide 24x7 production support for enterprise SaaS platforms on AWS and Azure for 50+ Fortune 500 customers, leading incident response and ensuring platform stability.
- Perform pod-level and node-level troubleshooting on Azure Kubernetes Service (AKS) using kubectl and k9s, checking node health, investigating pod failures, and analyzing container logs through observability and monitoring tools.
- Diagnose and resolve Kubernetes issues including CrashLoopBackOff, OOMKilled, OutOfMemoryError, pod restarts, and node scale-down events across microservices namespaces.
- Mentor new and junior engineers on runbook procedures and incident handling across a 12-member team, continuously editing and improving knowledge base articles.

Parametric Technology Corporation (PTC)

December 2022 - November 2025

Cloud NOC Technician Associate

Pune, India

- Triageed and resolved 5,000+ production incidents on hosted environments across AWS and Azure, achieving 99.9% uptime across 50+ Fortune 500 client environments.
- Resolved recurring memory and OutOfMemory alerts through systematic root cause analysis over 2.5+ years, collaborating with the Technical Architect team to improve performance and optimize infrastructure cost.
- Investigate and triage alerts including web server outages, application service downtime, high resource utilization, and Java process spikes; resolve directly where possible or escalate to NOC Central and Incident Management teams.
- Diagnose issues by analyzing logs in Sumo Logic and AWS CloudWatch, performing Linux troubleshooting across 200+ production servers including Apache and Tomcat; monitor availability through Catchpoint.
- Manage incidents through ServiceNow following ITIL processes, authoring 3+ runbooks and continuously refining existing ones while working 24x7 rotating shifts.

Johnson Controls

July 2022 - November 2022

Full-time Intern (Graphics Design - BMS Projects)

Pune, India

- Designed building visualization graphics for 30+ automation projects serving international clients, creating floor layouts, walls, and 3D building images using 3D design software and refining them in Photoshop.

Cognizant Technology Solutions

January 2022 - June 2022

Programmer Analyst Trainee

Bangalore, India

- Completed a 6-month paid final-year internship: trained in full-stack fundamentals, SQL, and databases, then specialized in Java, building a Spring Boot MVC project with MySQL. Earned a full-time offer based on performance.

Technical Skills

Reliability & SRE: Site Reliability Engineering (SRE), Production Support, Observability, Incident Management, Major Incident Management, Root Cause Analysis, MTTR Reduction, SLA Adherence, Change Coordination, On-Call Operations
Cloud Platforms: Amazon Web Services (EC2, CloudWatch), Microsoft Azure (AKS, Virtual Machines, App Services), Cloud Monitoring & Log Analysis
Containers & Orchestration: Azure Kubernetes Service (AKS), kubectl, k9s, Pod & Node Troubleshooting, Namespaces, CrashLoopBackOff, OOMKilled, Container Health Diagnostics
Operating Systems & Scripting: Linux (RHEL, CentOS, Ubuntu), Bash & Shell Scripting, PowerShell, Cron, Systemd, SSH, Apache, Tomcat, Performance Tuning, Python
Monitoring & Observability: AWS CloudWatch, Sumo Logic, Zabbix, Prometheus, Grafana, Catchpoint, PagerDuty, Log Analysis, Event Analysis, Alerting
Databases & Networking: PostgreSQL, MySQL, SQL, DNS, TCP/IP, Load Balancers, VPN
ITSM & Collaboration: ServiceNow, Jira, Bitbucket, ITIL, Change Management, Knowledge Base, Documentation

Certifications

- Microsoft Certified: AZ-900 Azure Fundamentals - Microsoft, 2023.
- Microsoft Certified: DP-900 Data Fundamentals - Microsoft, 2023.
- Advanced Kubernetes Operations and Linux System Administration - KodeKloud, 2024.

Achievements

- Received Customer First Award at PTC for exceptional operational impact and customer satisfaction across 50+ enterprise accounts.
- Won Smart India Hackathon at the national level, competing against 10,000+ teams.
- Attended KubeCon and CloudNativeCon India 2025, networking with 2,000+ cloud native professionals.

Education

Manipal University Jaipur

2025 - 2027 (Expected)

MBA - Information System Management / Analytics and Data Science

Panimalar Engineering College

2018 - 2022

Bachelor of Engineering - Electronics and Instrumentation | CGPA: 8.1 / 10
