SUMMARY

Cloud Operations and Site Reliability Engineer with **3+ years** keeping enterprise SaaS platforms (Windchill, ThingWorx, FlexPLM) reliable on **AWS and Azure** for **50+ Fortune 500 customers**. Strong in **Kubernetes (AKS) troubleshooting, Linux administration, observability, and Major Incident Management**, with a track record of **5,000+ incidents resolved at 99.9% uptime**. Lead high-severity incident bridges, drive recurring issues to permanent root cause, and author runbooks adopted team-wide. Currently building **CI/CD and Terraform (IaC)** skills and pursuing **CKA** to extend operations expertise into automation and platform engineering.

KEY ACHIEVEMENTS

- Resolved **5,000+ production incidents** across AWS and Azure at **99.9% uptime** for 50+ Fortune 500 environments, leading triage, diagnosis, and high-severity bridge coordination on 24x7 operations.
- Drove recurring **memory / OutOfMemory and performance incidents** to permanent root cause over **2.5+ years**, partnering with Technical Architects to improve stability and optimize cloud cost.
- Authored and standardized **10+ runbooks** under ITIL change management, reducing repeat escalations and accelerating new-engineer onboarding across a **12-member team**.
- Owned the **alert lifecycle** (Zabbix) and validated monitoring for customer go-lives, improving signal quality and cutting false-positive pages.
- Performed **Kubernetes (AKS) troubleshooting** at pod and node level — CrashLoopBackOff, OOMKilled, OutOfMemoryError, pod restarts, node scale-downs — restoring microservices quickly.
- Maintained **Linux production fleet of 200+ servers** (RHEL/CentOS/Ubuntu) — Apache, Tomcat, directory services — diagnosing CPU, memory, disk, and network issues to keep customer environments stable.
- Recognized with **PTC Customer First Award** (major incident recovery) and **Cheers Award** (performance & efficiency); **National Winner of Smart India Hackathon 2020** among 10,000+ teams.

PROFESSIONAL EXPERIENCE

Cloud Services Specialist NOC Engineer | PTC Inc. | Pune

Nov 2025 – Present

- Provide **24x7 production support** and lead **Major Incident Management** for enterprise SaaS platforms on AWS and Azure across 50+ Fortune 500 customers, owning triage, diagnosis, communication, and resolution.
- Lead **high-severity incident bridges** end to end, coordinating App, DB, and Network teams and keeping stakeholders aligned through clear technical communication during outages.
- Perform **pod- and node-level troubleshooting on Kubernetes (AKS)** using kubectl and k9s — resolving CrashLoopBackOff, OOMKilled, OutOfMemoryError, pod restarts, and node scale-down events across microservices namespaces.
- Own the **alert lifecycle in Zabbix** — acknowledge, investigate, resolve or escalate, verify, and close — and validate monitoring for customer go-lives.
- Drive **post-incident reviews and root cause analysis**, feeding findings back into runbooks and detection logic to prevent recurrence; mentor new and junior engineers across a 12-member team.

Cloud Services Associate NOC Engineer | PTC Inc. | Pune

Dec 2022 – Nov 2025

- Triaged and resolved **5,000+ production incidents** across AWS and Azure, achieving **99.9% uptime** across 50+ Fortune 500 environments on 24x7 rotating shifts.
- Resolved recurring memory and OutOfMemory alerts through **systematic root cause analysis** over 2.5+ years, collaborating with Technical Architects to improve performance and optimize infrastructure cost.
- Diagnosed issues by analyzing logs in **Sumo Logic** and investigating alerts surfaced through **AWS CloudWatch**; performed Linux troubleshooting across **200+ production servers** including Apache, Tomcat, Apache DS, and Red Hat Directory Server.
- Investigated web server outages, service downtime, high resource utilization, and Java process spikes; resolved directly or escalated to NOC Central and Incident Management teams.
- Raised and managed change requests through **ServiceNow following ITIL**, authoring 10+ runbooks and continuously refining existing ones.

Programmer Analyst Trainee | Cognizant Technology Solutions | Bangalore

Jan 2022 – Jun 2022

- Completed a 6-month paid final-year internship: trained in full-stack fundamentals and databases, then specialized in Java, building a Spring Boot MVC project with MySQL. Earned a full-time offer based on performance.

TECHNICAL SKILLS

Cloud & Containers: AWS (EC2, CloudWatch, S3, IAM), Microsoft Azure (AKS, Virtual Machines, App Services), Kubernetes (AKS), Docker, kubectl, k9s, Pod & Node Troubleshooting, Namespaces, Container Health Diagnostics

Observability & Monitoring: Zabbix, Sumo Logic, AWS CloudWatch, Prometheus, Grafana, Catchpoint, PagerDuty, Alert Lifecycle Management, Log and Event Analysis

Operating Systems, Scripting & Automation: Linux (RHEL, CentOS, Ubuntu), Bash and Shell Scripting, Python, PowerShell, Cron, Systemd, Apache, Tomcat, Performance Tuning

Reliability & ITSM: Site Reliability Engineering (SRE), Major Incident Management, Production Support, Root Cause Analysis (RCA), Post-Incident Reviews, SLA Adherence, Change Management, On-Call Operations, ITIL, ServiceNow, Jira

Networking: Network Troubleshooting, DNS, TCP/IP, HTTP/HTTPS, Load Balancers, VPN, Connectivity and Latency Diagnostics

Databases: PostgreSQL, MySQL, SQL

Currently Building: Certified Kubernetes Administrator (CKA) in progress, Terraform (Infrastructure as Code), CI/CD (GitHub Actions), Docker workflows, Python automation

AI-Assisted Engineering: GitHub Copilot, Claude, ChatGPT, Gemini (incident summarization, scripting, root-cause analysis, productivity)

CORE COMPETENCIES

Kubernetes (AKS) Operations | Site Reliability Engineering | Major Incident Management | Production Support | Observability & Monitoring | Root Cause Analysis | On-Call Operations | Linux Administration | Cloud Operations (AWS & Azure)

CERTIFICATIONS

- **Certified Kubernetes Administrator (CKA)** — In Progress
- **Microsoft Certified: AZ-900 Azure Fundamentals** — Microsoft, 2023
- **Microsoft Certified: DP-900 Azure Data Fundamentals** — Microsoft, 2023

EDUCATION

MBA — Information Systems Management / Analytics & Data Science, Manipal University Jaipur 2025 – 2027 (Expected)

B.E. — Electronics & Instrumentation, Panimalar Engineering College, Chennai CGPA 8.1/10 | 2018 – 2022

AWARDS & COMMUNITY

- **National Winner, Smart India Hackathon 2020** — among 10,000+ competing teams, built for the Bureau of Police Research & Development (Govt. of India).
- **PTC Customer First Award** (major incident recovery, 2024) and **PTC Cheers Award** (performance & efficiency, 2026).
- **KubeCon + CloudNativeCon India** — Attendee 2025 & 2026 (CNCF flagship).
