SUMMARY

Cloud Operations and NOC Engineer with 3+ years of experience supporting 24x7 production operations for enterprise SaaS platforms on AWS and Azure for Fortune 500 customers at PTC. Skilled in Kubernetes (AKS) pod and node troubleshooting, Linux administration, incident management, log analysis, and root cause analysis. Resolved 5,000+ production incidents with 99.9% uptime, reduced recurring alerts through performance tuning, and authored runbooks adopted team-wide. Strong problem solver experienced in rotating shift operations and cross-team collaboration.

SKILLS

Cloud Operations: Cloud-Ops, NOC Operations, SaaS Operations, 24x7x365 Support, Multi-Cloud Operations, Availability and Uptime Monitoring, Incident Response, Production Support
Cloud Platforms: Amazon Web Services (EC2, CloudWatch), Microsoft Azure (AKS, Virtual Machines, App Services), Cloud-Hosted Workloads
Kubernetes and Containers: Azure Kubernetes Service (AKS), kubectl, k9s, Pod and Node Troubleshooting, Namespaces, CrashLoopBackOff, OOMKilled, Pod Restarts, Node Scaling, Container Health Diagnostics, Docker, Helm
Operating Systems and Middleware: Linux (RHEL, CentOS, Ubuntu), Linux Commands, Bash Scripting, Shell Scripting, Cron, Systemd, SSH, Apache, Tomcat, Performance Tuning
Monitoring and Observability: Prometheus, Grafana, Sumo Logic, Zabbix, Catchpoint, PagerDuty, Dynatrace, Log Analysis, Event Analysis, Alerting
Databases and Scripting: PostgreSQL, MySQL, SQL, Database Connection Troubleshooting, Python, Bash, Runbook Automation
Incident and Process: ServiceNow, ITIL, Incident Management, Root Cause Analysis, MTTR Reduction, SLA Adherence, Escalation Management, Stakeholder Communication
Networking: DNS, TCP/IP, Networking Fundamentals, Load Balancers, VPN

WORK EXPERIENCE

Cloud Services Operations

December 2022 - Present

Parametric Technology Corporation (PTC), Pune, India

- Support 24x7 cloud operations for 50+ Fortune 500 customers, monitoring availability, performance, and uptime of multi-cloud SaaS services on AWS and Azure, resolving 5,000+ production incidents with 99.9% uptime.
- Perform pod-level and node-level troubleshooting on Azure Kubernetes Service (AKS) using kubectl and k9s, checking node health and running status, investigating pod failures, and downloading and analyzing container logs.
- Diagnose and resolve Kubernetes issues including CrashLoopBackOff, OOMKilled, OutOfMemoryError, pod restarts, node scale-down events, and unhealthy container alerts across microservices namespaces.
- Investigate application and database alerts including PostgreSQL connection errors, container health, and availability alerts, correlating Kubernetes events to the application stack.
- Resolved recurring memory and OutOfMemory alerts through systematic root cause analysis over 2.5+ years, collaborating with the Technical Architect team to improve performance and optimize infrastructure cost.
- Diagnose issues by analyzing logs in Sumo Logic and performing Linux command-line troubleshooting across 200+ production servers including Apache and Tomcat; resolve directly or escalate to NOC Central and Incident Management teams.
- Manage incidents through ServiceNow following ITIL processes, monitoring application availability via Catchpoint and reviewing AWS EC2 and Azure VM resource utilization.
- Authored 3+ runbooks and continuously refined existing ones, mentoring new hires across a 12-member team while working 24x7 rotating shifts including nights and weekends.

Full-time Intern (Graphics Design - BMS Projects)

July 2022 - November 2022

Johnson Controls, Pune, India

- Designed building visualization graphics for 30+ automation projects serving international clients, creating floor layouts, walls, and 3D building images using 3D design software and refining them in Photoshop.

Programmer Analyst Trainee

January 2022 - June 2022

Cognizant Technology Solutions, Bangalore, India

- Completed a 6-month paid final-year internship: trained in full-stack fundamentals, SQL, and databases, then specialized in Java, building a Spring Boot MVC project with MySQL. Earned a full-time offer based on performance.

ACHIEVEMENTS

- Received PTC Cheers Award (Performance and Efficiency) for collaborating with the Technical Architect team on best practices and knowledge articles, improving customer application performance and optimizing infrastructure cost.
- Received Customer First Award at PTC for exceptional operational impact and customer satisfaction across 50+ enterprise accounts.
- Won Smart India Hackathon at the national level, competing against 10,000+ teams.

CERTIFICATIONS

- Microsoft Certified: AZ-900 Azure Fundamentals - Microsoft, 2023.
- Microsoft Certified: DP-900 Data Fundamentals - Microsoft, 2023.
- Advanced Kubernetes Operations and Linux System Administration - KodeKloud, 2024.

EDUCATION

MBA - Information System Management / Analytics and Data Science | Manipal University Jaipur | 2025 - 2027 (Expected)
Bachelor of Engineering - Electronics and Instrumentation | Panimalar Engineering College | 2018 - 2022 | CGPA: 8.1 out of 10
